Cycle Computer CPU Upgrades

**Cycle Upgrades:
High Performance and
Ease of Installation,**

**Without A New
System Price.**

Why Buy New? Increase Your System Performance With Cycle Upgrades!

Upgrade almost any existing SPARCstation to TurboSPARC or UltraSPARC performance with a Cycle upgrade board from Rave Computer.

Maintain investment costs by using Cycle upgrades to enhance the performance of your system(s). Cycle upgrades are easy to install and offer an economical alternative to buying a new system. Most Cycle products are supported by SunService.
